-		sis of the report
1.	With	h regard to the elements of the international application:*
	\mathbb{A}	the international application as originally filed.
	\bowtie	the description:
		pages 1-14 as originally filed
		pages NONE , filed with the demand pages NONE , filed with the letter of
	X	the claims:
	لاسكا	pages 15-17 , as originally filed
		pages NONE , as amended (together with any statement) under Article 19
		pages NONE , filed with the demand
		pages NONE, filed with the letter of
	\boxtimes	the drawings:
		pages 1-6 , as originally filed
		pages NONE , filed with the demand pages NONE , filed with the letter of
	ш	the sequence listing part of the description: pages NONE, as originally filed
		pages NONE , filed with the demand
		pages NONE, filed with the letter of
2.	With	h regard to the language, all the elements marked above were available or furnished to this Authority in the
	lange	uage in which the international application was filed, unless otherwise indicated under this item. se elements were available or furnished to this Authority in the following language which is:
	Ц	the language of a translation furnished for the purposes of international search (under Rule23.1(b)).
		the language of publication of the international application (under Rule 48.3(b)).
		the language of the translation furnished for the purposes of international preliminary examination funder Rules
_		33.2 aiid/or 33.3).
3.	Interi	n regard to any nucleotide and/or amino acid sequence disclosed in the international application, the national preliminary examination was carried out on the basis of the sequence listing:
		contained in the international application in printed form.
		filed together with the international application in computer readable form.
		furnished subsequently to this Authority in written form.
	Ц	furnished subsequently to this Authority in computer readable form.
		The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the
		international application as filed has been furnished.
ļ		The statement that the information recorded in computer readable form is identical to the written sequence listing
		has been furnished.
4.	\bowtie	The amendments have resulted in the cancellation of:
		the description, pages <u>NONE</u>
	•	the claims, Nos. NONE
г	[′]	the drawings, sheets/fig NONE
5. <u>[</u>	,	This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**
	eplace report	ement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in t as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17). placement sheet containing such amendments must be referred to under item 1 and annexed to this report.
		the second street community such dimendiments must be rejerred to under them 1 and annexed to this report.

Form PCT/IPEA/409 (Box V) (July 1998)

International appropriation No. PCT/US03/29132

V. Reasoned statement under Rule 66.2(a)(i citations and explanati ns supporting such	ii) with regar	rd t novelty, inventive step	or industrial applicability;			
1. STATEMENT						
Novelty (N)	Claims	17-19 and 26	YES			
	Claims	NONE	No			
Inventive Step (IS)	Claims	NONE	YES			
	Claims	1-26	NO			
Industrial Applicability (IA)	Claims	1-26	YES			
	Claims	NONE	NO			
2. CITATIONS AND EXPLANATIONS Claims 1-16, 20-25 lack novelty under PCT Article 33(2) as being anticipated by Lin (US 5,144,630). With respect to claims 1-16 and 20-25, Lin shows in Fig. 4-5, a laser illumination system comprising two diode pumped solid state lasers 1 and 30 to produce two or more respective wavelengths (2, 31, 36) along a common optical axis, a controller 27, frequency doubling section 35, a fold mirror 37, one combiner mirror 34, a target area 28, a collimating mirror 3, and a delivery system 29. Claims 17-19 and 26 lack an inventive step under PCT Article 33(3) as being obvious over Lin (US 5,144,630) in view of Nielsen (US 5,291,505). With respect to claim 17, Lin discloses all limitations of the claim except for the attenuator. Nielsen teaches an attenuator 22 (Fig. 1). For the benefit of attenuating the beam, it would have been obvious to one having ordinary skill in the art at the time trinvention was made to provide Lin an attenuator as taught by Nielsen. With respect to claim 18, Nielsen discloses a detector 23 (Fig. 1). With respect to claim 19, Nielsen discloses a diffuser 22 (Fig. 1). With respect to claim 26, Nielsen discloses a feedback from the detector (Fig. 1). ———————————————————————————————————
